Harlan "Mark" Guidry, MD, MPH  
Chief Executive Officer

January 27, 2005

The Galveston County Health District's United Board of Health and 4 C's Governing Board proudly present the first annual progress report on the Strategic Health Plan, adopted by both boards of health in January 2004.

In 2004, the Health District made significant progress in each of the eight strategic health priorities identified by a broad and inclusive group of community stakeholders in the planning process. The progress report identifies both accomplishments and future efforts to be targeted in 2005 - 2010.

The Boards acknowledge and commend the efforts of Health District staff that carry out these activities with dedication and diligence. We also are appreciative of the many, many community stakeholders, both groups and individuals, who have played an instrumental role in making positive steps towards health improvements for Galveston County.

We support and look forward to the next steps in our journey to a healthier community.

Sincerely,

John A. Zendt, Chair  
Galveston County United Board of Health

Brian Maxwell, Chair  
4 C's Governing Board
